Isle of Palms Fire Department

Call Summary

August 2018

- 8/1/2018 Fire Department personnel received a call for two swimmers in distress in the surf near the area of 6600 Palmetto Drive. Fire crews launched a jet-ski and were able to retrieve both swimmers and return them back to shore. The swimmers were evaluated by Charleston County EMS for any injuries or need for medical care. All personnel cleared from the scene and returned back to service.
- 8/12/2018 Fire Department personnel received a call for a smell of gas at the Isle of Palms Exchange Club. Upon arrival, crews checked the area with a gas meter but no signs of gas were present as described by the neighbors. It was found that the tank was low, which will allow small amounts of off-gassing. The propane tank was secured and point of contact was told to contact the gas company before turning the gas back on. All personnel cleared from the scene and returned back to service.
- 8/14/2018 Fire Department personnel received a call for a structure fire on Ocean Boulevard. Upon arrival, crews found the house to be filled with a light haze and the smell of over-heated electrical. A thorough inspection of the home was performed and it was found that the air handler for the HVAC system had an electrical arc and melted some of the electrical components. Power to the air handler was disconnected. The home-owner was told to leave the unit disconnected until necessary repairs could be made. All personnel cleared from the scene and returned back to service.
- 8/18/2018 Fire Department personnel received a call resulting from a carbon dioxide detector activation at the Circle K gas station. Fire crews used a gas meter and were able to find a leak from the hose used to carbonate the fountain drinks. The leaking line was shut off and the manager was advised to fix the issue before restoring the system. All personnel cleared from the scene and returned back to service.
