

**Beach Path Repair- 49th Avenue
City of Isle of Palms
Request for Bids (RFB) 2016-07
Response to Questions September 13, 2016**

Addendum 1

Question 1. Can you tell me if there is any additional information? The advertisement talks about a parking lot but there does not seem to be any info on that- is that in another phase?

Response: No, there is no additional information. It is believed that any reference to a parking lot is an error of an internet site listing.

Question 2. Can you please confirm if the only bid document that is to be returned is page 4 (Bid Form) of the bid packet? I did not see where any other documents were required to the bid proposal and just wanted to confirm that.

Response: Bidders should include the bid document and acknowledge receipt of the responses contained in this addendum, which can be written on the bid document or submitted separately. Additionally, contractors may be asked after the bid opening to provide examples of similar prior work experience and a list of references.
